Accessing, Downloading, and
Troubleshooting

Montana Office of Public Instruction

Instructional Innovations Unit

**The unit's major objective is to provide
usable resources to support teachers
and principals in enhancing
instruction in all Montana classrooms.**

Accessing

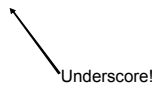

URL: http://opi.mt.gov/Streamer/Instructional_Innovations/

Or:

Go to opi.mt.gov

Click on programs

Click on Instructional Innovations

Content downloads to...

o ipod Touch

- Follow the steps found on the Instructional Innovations Website
- One click directions appear under the search options

Installing DPI Training videos onto your iPod Touch (iTouch)

Software to have on your computer before you download videos to your iPod Touch

- [iTunes](#) (Mac/Apple)
- [iTunes](#) (Windows/PC)
- [iTunes](#) (Android)

Viewing and downloading videos

To order [content](#) (the videos) from [opi.mt.gov](#), click on the "Content" link in the left sidebar.

- Click on the "Content" link in the left sidebar of the Instructional Innovations OP site, under the "Content" link in the left sidebar.
- The video will start to play automatically. To save the video to your computer, click on the "Download" button in the bottom right corner of the video player.

Transfer downloaded video from iTunes library to your iPod Touch

- Open iTunes.
- When the video has completely downloaded, click "File" then "Add to Library."
- Connect to where you have stored the video, or use the internet to download it.
- Open your iPod.
- Select your iPod when iTunes recognizes it.
- Click on the "Movies" tab.
- Find the video of the OP video and click the "i" icon.
- In the lower right hand corner of iTunes click "Sync". This will send the video to your iPod.
- If you want to send multiple videos to the iPod, click on all the videos you want to transfer to your iPod. Then click "Sync".

Videos to be available on iTunes U

- OP videos including the ones found on instructional innovations will be available on iTunes U. When available on iTunes U, the video will be available to your computer and you can sync it to your iPod. To see how you can access and use iTunes U go to <http://www.apple.com/itunes/u/>
